Colour Characteristics

Colours are shown as accurately as printing allows. A lightfastness rating and pigment specification is provided for each colour as your warranty of quality.

Pigment Description

PY = Pigment Yellow
PO = Pigment Orange
PW = Pigment White
PBr = Pigment Brown

PB = Pigment Blue
PV = Pigment Violet
PG = Pigment Green
PBk = Pigment Black

PR = Pigment Red
LF = Light Fast

Pigments

○ Transparent ● Semi ● Opaque

Both opaque and transparent pigments are used in the Jo Sonja line. Transparent pigments reflect light differently than opaque pigments, which do not allow the light to pass through. Colours labelled as transparent allow the light to pass through the transparent pigment particles, thus allowing the undercoat to show through. These make wonderful colours for glazing.

Temperature

↓ Warm ↓ Warm/Cool ↓ Cool

ASTM Pigment Lightfastness

ASTM 1 – Pigments of excellent lightfastness
ASTM 2 – Pigments of very good lightfastness

Family

N = Neutral
Y = Yellow
YO = Yellow Orange
O = Orange
RO = Red Orange
R = Red
RV = Red Violet
V = Violet
BV = Blue Violet
B = Blue
BG = Blue Green
G = Green
YG = Yellow Green
